

1990 – 1994 : régulation de l'expression du gène codant la Transferrine humaine.

[The enhancer of the human transferrin gene is organized in two structural and functional domains.](#)

Boissier F, **Augé-Gouillou C**, Schaeffer E, Zakin MM. J Biol Chem. 1991 May 25;266(15):9822-8. PMID: 2033069 Free article.

[Characterization of the active part of the human transferrin gene enhancer and purification of two liver nuclear factors interacting with the TGTTGC motif present in this region.](#)

Petropoulos I, **Augé-Gouillou C**, Zakin MM. J Biol Chem. 1991 Dec 15;266(35):24220-5. PMID: 1748690 Free article.

[Liver-enriched HNF-3 alpha and ubiquitous factors interact with the human transferrin gene enhancer.](#)

Augé-Gouillou C, Petropoulos I, Zakin MM. FEBS Lett. 1993 May 24;323(1-2):4-10. doi: 10.1016/0014-5793(93)81436-4. PMID: 8495744 Free article.
